FOREWORD

The *2008 Philippine Standard Classification of Education (PSCEd)* is the third inter-agency collaboration between and among partners in the Philippine Statistical System (PSS) geared towards the improvement of the education sector. The first standard classification ever developed in the Philippines was published in 1994, while an updated PSCEd was disseminated to users in 1997.

The PSCEd was developed to facilitate the compilation of the country's education statistics as basis for educational planning, manpower training, labor market studies and other related activities. Patterned after the International Standard Classification of Education (ISCED) produced by the United Nations Educational, Scientific and Cultural Organization (UNESCO), the PSCEd provides for national and international comparability of education statistics.

The PSCEd presents a detailed classification of all educational levels in the Philippine educational system. It is useful to those responsible in compiling statistics on education, either from administrative records or from censuses and surveys. It also serves as a guide to various users, particularly those in the academe and those involved in job placement and recruitment services.

The preparation of PSCEd has been made possible with the gargantuan tasks accomplished by the Technical Working Group on Education Classification (TWGEC) under the Technical Committee on Statistical Standards and Classifications (TCSSC). Likewise, we wish to express our deep appreciation for the support and cooperation extended by experts from Higher Education Institutions (HEIs) who unselfishly shared their knowledge and experience during the consultation meeting held to review educational programs and courses.

The PSCEd has been revised to take into account the requirements of the three key players in the education sector - the Department of Education (DepEd), Commission on Higher Education (CHED), and the Technical Education and Skills Development Authority (TESDA).

Pursuant to NSCB Resolution No. 8, Series of 2008, all concerned government offices, agencies and instrumentalities are hereby enjoined to adopt and use the *2008 Philippine Standard Classification of Education (PSCEd)* effective immediately.

RALPH G. RECTO

Secretary of Socio-Economic Planning, and
Chairman, National Statistical Coordination Board

MEMORANDUM CIRCULAR NO. _____

TO: All Agencies of the National and Local Government, Government-Owned and/or Controlled Corporations Involved in the Statistical Activities of the Government

SUBJECT: Guidelines for the Implementation of the 2008 Philippine Standard Classification of Education (PSCEd)

Pursuant to NSCB Resolution No. 8, Series of 2008 approved on the 10th day of September 2008 entitled, “Approving and Adopting the 2008 Philippine Standard Classification of Education (PSCEd)”, the following guidelines are hereby issued:

1. Adoption and Use of the 2008 PSCEd

The *2008 Philippine Standard Classification of Education (PSCEd)* is a detailed classification of all educational levels in the Philippine educational system. It is a tool designed to standardize and facilitate the compilation of the country’s education statistics as basis for educational planning, manpower training, labor market studies, and other related activities.

To promote better understanding and cooperation among users of education data, all concerned government agencies, offices and instrumentalities are hereby enjoined to adopt and use the 2008 PSCEd.

2. Concepts and Definitions

For purposes of the 2008 PSCEd, the following selected terms shall be adopted:

Adult Education - the entire body of organized educational processes, whatever the content, level and method, whether formal or otherwise, whether they prolong or replace initial education in schools, colleges and universities as well as in apprenticeship, whereby persons regarded as adults by the society to which they belong, improve their technical or professional qualifications, further develop their abilities, and enrich their knowledge with the purpose: (a) to complete a level of formal education; (b) to acquire knowledge and skills in a new field; and (c) to refresh or update their knowledge in a particular field.

Alternative Learning System (ALS) - a parallel learning system aimed to provide a viable alternative to the existing formal educational instruction. It encompasses both the informal and non-formal sources of knowledge and skills.

Distance Education/Learning - a method of learning and teaching which employs print, radio, television, computer-based communications, satellite broadcasting, teleconferencing or other educational technologies which allows students to study on their own without having to regularly attend classes in conventional classrooms.

Double Degree - a program wherein students simultaneously complete two undergraduate degree programs.

Education - comprises all organized and sustained communication process designed to bring about learning.

Formal Education - the systematic and deliberate process of hierarchically structured and sequential learning corresponding to the general concept of elementary and secondary level of schooling. At the end of each level, the learner needs a certification in order to enter or advance to the next level.

Non-Formal Education - any organized, systematic educational activity carried outside the framework of the formal system to provide selected types of learning to a segment of the population.

Special Needs Education - the education of children and youth with special needs corresponding to elementary and secondary education that require modifications of school practices, curricula, programs, special services and facilities. These include children and youth who are gifted/talented, fast learners and those with disabilities.

3. Rules in Classification

Under the 2008 PSCEd, **Levels 0** to **2**, and **5** to **6** are confined to formal education, while **Level 4** to non-formal education. Level 4 includes courses previously classified under **Levels 5** and **9** in the 1997 ISCEd. **Level 3**, which refers to (upper) secondary education, or second stage of basic education under the international setting was not included in the 2008 PSCEd since it is not applicable to the Philippine educational system. **Level 8** is a reserve code in case when additional category is to be inserted or existing category is to be amended without necessarily upsetting the system. **Level 9** which was reserved for the educational programs that could not be allocated to any other level has been eliminated. It is assumed that all educational programs can be classified in the various levels.

The 2008 PSCEd publication is divided into three parts. Part I contains the definition/description of educational levels, broad groups, fields and programs. Part II contains the coding scheme used for the different educational levels, broad groups, fields, programs and courses. Presented under this section is the list of educational courses and their corresponding codes - classified according to levels, broad groups, fields and programs. Part III contains the alphabetic index.

For purposes of classifying and/or gathering data on the educational attainment of the population, the following rules shall be followed:

- Enrollees/Graduates of pre-primary/pre-school education, i.e., nursery, kindergarten and preparatory are classified under **Level 0**
- Enrollees/Graduates of primary/elementary education, i.e., Grades I to VII are classified under **Level 1**
- Enrollees/Graduates of secondary/high school education, i.e., First Year to Fourth Year High School are classified under **Level 2**
- Enrollees/Graduates of 3-month to 3-year technical-vocational education courses are classified under **Level 4**
- Enrollees/Graduates of baccalaureate courses are classified under **Level 5**
- Enrollees/Graduates of post-graduate courses are classified under **Level 6**

For enrollees/graduates of more than one course, the following rules shall be adopted:

- If the degrees are of the same level, the course which the individual is actually practicing or is engaged in should be the one to be reported. On the other hand, if the individual practices both courses (which are of the same level) at the same time, the course where he/she spends more time should be the one to be reported.
- If the degrees are of different levels, whichever is higher should be the one to be reported.

This memorandum circular shall take effect immediately. Henceforth, all other education classification systems adopted by concerned agencies are deemed superseded.

2008 PHILIPPINE STANDARD CLASSIFICATION OF EDUCATION (PSCED)

I. BACKGROUND

The *2008 Philippine Standard Classification of Education (PSCEd)* is a detailed classification of all educational levels in the Philippine educational system. It aims to integrate the different coding schemes being used by various government agencies, education and research institutions, and international organizations. The Department of Education (DepEd), for instance, has a coding system for the classification of technical-vocational and higher education programs/courses being offered in Philippine colleges and universities. The National Statistics Office (NSO), on the other hand, has been utilizing a coding system for educational courses in processing the Integrated Survey of Households (ISH) and the Census of Population and Housing (CPH).

The PSCEd has been patterned after the International Standard Classification of Education (ISCED) produced by the United Nations Educational, Scientific and Cultural Organization (UNESCO) for the purpose of assembling, compiling, and presenting education statistics, both nationally and internationally.

In view of the many changes that have taken place in the educational systems since the 1997 ISCED revision, there is a growing clamor to address various problems in terms of implementation and other concerns.

In drafting the 2008 PSCEd, the following activities were undertaken:

- Creation of the Technical Working Group on Education Classification (TWGEC) chaired by the Commission on Higher Education (CHED), with member agencies from the Department of Education (DepEd), Technical Education and Skills Development Authority (TESDA), Science Education Institute (SEI), Bureau of Local Employment (BLE), and National Statistics Office (NSO). The National Statistical Coordination Board (NSCB) serves as the Secretariat responsible for technical coordination as well as overall planning and management of activities of the TWG;
- Identification of new/emerging and obsolete educational programs and courses through internet, newspapers and other reference documents;
- Definition/Description of educational levels, fields and programs;
- Revision of coding scheme adopted for the different levels and fields of education;

- Development of a correspondence table to indicate the old codes of educational programs and courses used in the 1997 PSCEd;
- Discussion/Review of educational programs and courses by level of education with concerned agencies as lead: (a) Levels 4 and 9 - TESDA; and (b) Levels 5 and 6 - CHED;
- Consultation with experts from Higher Education Institutions (HEIs), i.e., public and private university registrars, to elicit comments/suggestions on the revised list of educational programs and courses;
- Presentation of the final draft 2008 PSCEd for approval of the NSCB Executive Board;
- Issuance of *NSCB Resolution No. 8, Series of 2008* approving and adopting the 2008 PSCEd;
- Preparation of the 2008 PSCEd publication;
- Conduct of information dissemination and advocacy work on the utilization of 2008 PSCEd through press release; and
- Development of PSCEd database in the NSCB website.

The publication is divided into three parts. Part I contains the definition/description of educational levels, broad groups, fields and programs. Part II contains the coding scheme used for the different educational levels, broad groups, fields, programs and courses. Presented under this section is the list of educational courses and their corresponding codes - classified according to levels, broad groups, fields and programs. Part III contains the alphabetic index.

The definition/description of educational levels, broad groups, fields and programs was still based on the 1976 ISCEd. It seemed that UNESCO did not prepare a more detailed document containing program/course description. In response to the request for unabridged publication, only an operational manual was instead sent to NSCB as complimentary copy.

II. GOALS

1. To provide the basic conceptual framework for the collection, compilation and presentation of statistics in the Philippine educational system;
2. To promote better understanding and cooperation, both within the international and national educational communities; and

3. To contribute to the improvement in the generation of quality education statistics.

III. GUIDING PRINCIPLES

The following guidelines were adhered to in the development of the 2008 PSCEd:

1. The 1997 International Standard Classification of Education (ISCED) was adopted as the basic reference document. Modifications, however, were made to suit domestic/local conditions and requirements.
2. As with ISCED, the PSCEd categorizes educational programs by their content along two main axes referred to as cross-classification variables: **levels** and **fields** of education.
3. In the classification of educational levels, their popular names shall be indicated (the first term refers to Philippine setting/new concept being adopted, while the second term refers to international/old terminology used) as follows:

Level 0	Pre-Primary/Pre-School
Level 1	Primary/Elementary
Level 2	Secondary/High School
Level 4	Post-Secondary Non-Tertiary/Technical-Vocational
Level 5	Tertiary, First Stage/Baccalaureate
Level 6	Tertiary, Second Stage/Post-Graduate

4. Renumbering of levels of education (1997 PSCEd vs 2008 PSCEd):

	<u>1997 PSCEd</u>	<u>2008 PSCEd</u>
Non-Degree	5	
Post-Secondary Non-Tertiary/ Technical-Vocational		4*
Tertiary, First Stage/Baccalaureate	6	5
Tertiary, Second Stage/Post-Graduate	7	6
Not Elsewhere Classified	9	

***Level 4** includes educational programs and courses previously classified under **Levels 5** and **9** in the 1997 PSCEd

5. Some modifications in the 2008 PSCEd broad structure:

- The levels of education were reduced from 7 to 6:

1997 PSCEd

0 Pre-School
1 Elementary
2 High School

5 Non-Degree
6 Baccalaureate
7 Post-Graduate
9 Not Elsewhere
Classified

2008 PSCEd

0 Pre-Primary
1 Primary
2 Secondary
4 Post-Secondary
Non-Tertiary

5 Tertiary, First Stage
6 Tertiary, Second Stage

- A new level, **Level 4**, has been introduced to cover educational programs and courses which straddle the boundary between upper secondary and tertiary education
- Tertiary education now comprises only two levels, **Levels 5** and **6**, instead of the previous three, **Levels 5** to **7**
- **Level 9** which was reserved for the educational programs that could not be allocated to any other level has been eliminated. It is assumed that all educational programs can be classified in the various levels.
- The fields of education were increased to cover 25 categories compared to 21 in the 1997 PSCEd (including 9 broad groups introduced in the 2008 PSCEd):

1997 PSCEd

01 General
08 Literacy

14 Teacher Training and
Education Science

18 Fine and Applied Arts
22 Humanities

2008 PSCEd

0 GENERAL
01 Basic

78 Service Trades		
70 Transport and Communication	84	Transport Services
89 Other Programs	85	Environmental Protection
	86	Security Services

- **Broad group**, an innovation made to eliminate overlapping by grouping together fields of education having similarities:

0	General
1	Education
2	Humanities and Arts
3	Social Sciences, Business and Law
4	Science
5	Engineering, Manufacturing and Construction
6	Agriculture
7	Health and Welfare
8	Services

The 2-digit code assigned to a broad group shall consist of the following: the **first digit** refers to a level of education (for third level only - Level 4, 5 or 6), while the **second digit** refers to any of the single-digit code associated with the particular group of related fields.

6. The 2008 PSCEd is a five-stage classification system providing successive subdivisions from level to broad group to field to program to course:

- The **level**, represented by a **1-digit code**, and is defined as a stage that denotes the steps of educational progression, e.g., **tertiary**.
- The **broad group**, represented by a **2-digit code**, and is defined as an innovation made to eliminate overlapping by grouping together fields of education having similarities, e.g., **Health and Welfare**.
- The **field**, represented by a **3-digit code**, and is defined as an aggregation of program groups that are related in terms of level and major subject-matter or area, e.g., **Health Programs**.
- The **program**, represented by a **5-digit code**, and is defined as a selection of one or more courses, e.g., **Programs in Nursing**.
- The **course**, represented by a **7-digit code**, and is defined as a planned series of learning experiences in a particular range of subject-matter or skills, e.g., **Bachelor of Science in Nursing**.

7. Changes made in educational courses (1997 PSCEd vs 2008 PSCEd):

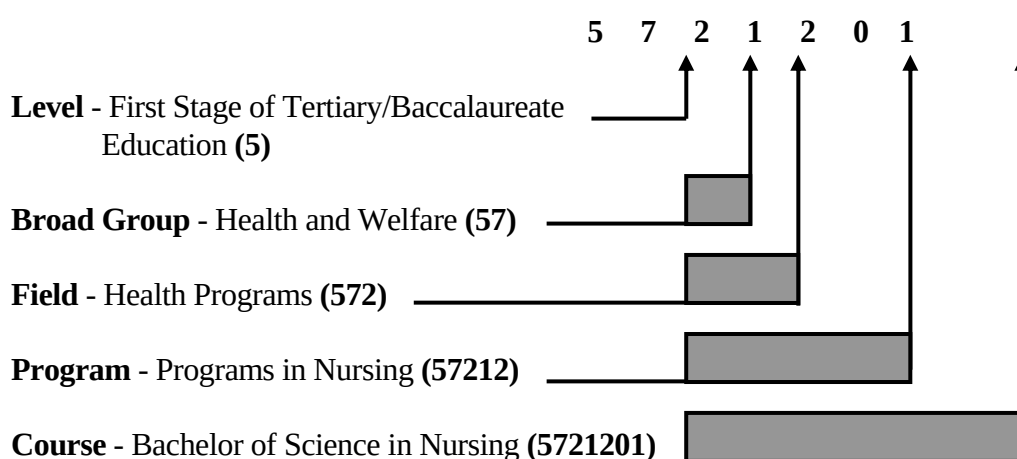

New/Emerging	refer to courses that are not found in the 1997 PSCEd
Deleted/Phased out	refer to obsolete courses that are no longer offered by Higher Education Institutions (HEIs)
Merged/Renamed	refer to similar courses that are being offered by different schools using different titles which are combined in one program/course

8. To guide users and others stakeholders in the utilization of the 2008 PSCEd, a correspondence table was developed to indicate the old codes of educational programs and courses used in the 1997 PSCEd.

IV. CODING SCHEME

The coding scheme of the 2008 PSCEd is similar to that of the 1997 ISCEd, with the **1-digit code** representing the **level**, the **2-digit code** representing the **broad group**, the **3-digit code** representing the **field**, and the **5-digit code** representing the **program**. The Philippine education classification system conforms to international standard (i.e.,1997 ISCEd), and is comparable across countries up to 5-digit code (program) only. The 2008 PSCEd coding system, however, has been extended to **7-digit code** representing the particular **course**.

To illustrate the revised coding scheme, the course - **Bachelor of Science in Nursing** coded **5721201**, is taken as an example. Its hierarchical structure is as follows:

The first digit (5) represents the **level**, **First Stage of Tertiary/Baccalaureate Education**. The first two digits (57) represent the **broad group**, **Health and Welfare**. The first digit (5) and the next two digits (72) taken together, represent the subject-matter **field (572)**, **Health Programs**. The first three digits (572) and the next two digits (12) taken together, represent the **program (57212)**, a selection of one or more courses under the **Programs in Nursing**. The first five

digits (57212) and the last two digits (01) altogether, represent the particular *course (5721201), Bachelor of Science in Nursing.*

EXPLANATORY NOTES:

1. Different levels of education in the Philippines:

Level 0 - pre-primary/pre-school education

Level 1 - primary/elementary or first stage of basic education

Level 2 - secondary/high school or second stage of basic education

Level 4 - post-secondary non-tertiary/technical-vocational education

Level 5 - first stage of tertiary/baccalaureate education

Level 6 - second stage of tertiary/post-graduate education

2. Scope and coverage of the different levels of education:

Level 0 - those enrollees/graduates of pre-primary/pre-school education, i.e., *nursery, kindergarten, preparatory*

Level 1 - those enrollees/graduates of primary/elementary education, i.e., *Grades I to VII*

Level 2 - those enrollees/graduates of secondary/high school education, i.e., *First Year to Fourth Year High School*

Level 4 - those enrollees/graduates of 3-month to 3-year technical-vocational education courses

Level 5 - those enrollees/graduates of baccalaureate courses

Level 6 - those enrollees/graduates of post-graduate courses

3. Ideal age composition by level of education:

Pre-Primary/Pre-School Education (Level 0) - ages from 3 to 5 years old

Primary/Elementary Education (Level 1) - ages from 6 to 11 years old

Secondary/High School Education (Level 2) - ages from 12 to 15 years old

Post-Secondary Non-Tertiary/Technical-Vocational Education (Level 4) - ages from 16 to 19 years old

Tertiary/Baccalaureate Education (Level 5) - ages from 16 to 20 years old

Tertiary/Post-Graduate Education (Level 6) - ages from 21 to 22 years old

4. Stages of Philippine education classification system:

Level - a stage that represents the steps of educational progression, and is represented by a 1-digit code.

Example: Baccalaureate Degree (5)

Broad Group - an innovation made to eliminate overlapping by grouping together fields of education having similarities, and is represented by a 2-digit code. The 2-digit code assigned to a broad group shall consist of the following: the **first digit** refers to a level of education (for third level only - Level 4, 5 or 6), while the **second digit** refers to any of the single-digit code associated with the particular group of related fields.

Example: Health and Welfare (57)

Field - an aggregation of program groups that are related in terms of level and major subject-matter or area, and is represented by a 3-digit code.

Example: Health (572)

Program - a selection of one or more courses, and is represented by a 5-digit code.

Example: Programs in Nursing (57212)

Course - a planned series of learning experiences in a particular range of subject-matter or skills, and is represented by a 7-digit code.

Example: Bachelor of Science in Nursing (5721201)

5. Nine broad groups introduced in the 2008 PSCEd (based on 1997 ISCEd):

- 0 General
- 1 Education
- 2 Humanities and Arts
- 3 Social Sciences, Business and Law
- 4 Science
- 5 Engineering, Manufacturing and Construction

NSCB Resolution No. 8
Series of 2008

**APPROVING AND ADOPTING THE 2008 PHILIPPINE
STANDARD CLASSIFICATION OF EDUCATION (PSCED)**

WHEREAS, the National Statistical Coordination Board (NSCB) is the highest policymaking and coordinating body on all statistical matters in the Philippines;

WHEREAS, the NSCB is mandated to develop and prescribe uniform standards and classification systems in the generation of official statistics to ensure comparability and consistency across national and international boundaries;

WHEREAS, a standard educational classification is necessary to facilitate the compilation of the country's education statistics as basis for educational planning, manpower training, labor market studies, and other related activities;

WHEREAS, the NSCB, through the Technical Committee on Statistical Standards and Classifications (TCSSC), developed the Philippine Standard Classification of Education (PSCEd) in 1994;

WHEREAS, the PSCEd is patterned after the International Standard Classification of Education (ISCED) developed by the United Nations Educational, Scientific and Cultural Organization (UNESCO);

WHEREAS, the 1994 PSCEd (based on the 1976 ISCED) was approved and prescribed for adoption by the NSCB Executive Board through Resolution No. 4, Series of 1994, while an updated PSCEd (still based on the 1976 ISCED) was published in October 1997;

WHEREAS, the UNESCO revised the ISCED in 1997 to take into account the changes in general terminology, definitions, renumbering of levels, new rules and criteria for the allocation of programs to levels, and new specifications in the classification list;

WHEREAS, there is a need to revise the existing PSCEd to conform with the revised international standard classification, i.e., 1997 ISCED, but with modifications to suit domestic/local conditions and requirements;

WHEREAS, the NSCB Technical Staff, in coordination with the TCSSC and its Technical Working Group on Education Classification (TWGEC), has prepared the revisions to the PSCEd done in accordance with the approved Policy on the Revision and Amendment of the Philippine Standard Classification Systems, and is recommending the same for approval of the NSCB Executive Board;

NOW, THEREFORE, BE IT RESOLVED AS IT IS HEREBY RESOLVED, that the NSCB Executive Board approve the 2008 PSCEd (based on the 1997 ISCEd) for adoption and use by all concerned government offices, agencies and instrumentalities.

Approved this 10th day of September 2008 in Pasig City.
